Attachments: FY22 HAC QFR_PFAS-DeLauro-001_for AA review rns_TH.docx

Just spoke with Jeff who helped prepare the response along with others.

Note the cleaning products reference was part of the question and needs to be addressed in some way. The understanding is that OPPT is doing some level of information gathering on them. This is outside of pesticides. Jeff has a general with Tala this afternoon and will discuss with her on how to resolve.

Also the reference of manufacturers starting to move away from fluorinated containers was also based on feedback from OPPT and was not specific to pesticides.

Hi Mike,

In responding to Michal's comment on adding LVE, Ex. 5 Deliberative Process (DP)
Ex. 5 Deliberative Process (DP) Please see attached and send us your edits or provide comments to address OPPT's concerns.

Thank you
Khanh

Subject: RE: Comments from Michal: HAC PFAS QFR

Khanh – Here you go. Of note, there are two things in here:

- New language on DeLauro Question 1 (responsive to Michal's comments); and
- Edits to DeLauro Question 2. OPPT doesn't recall having seen some of this language before, and

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

Thanks much,
Alison

Subject: Comments from Michal: HAC PFAS QFR

Good morning, Vickie and Alison – Michal has one question on the attached response to QFR “on DeLauro, should we add the LVE policy?” I learned from OPP that LVE stands for “low volume exemption is managed under TSCA new chemicals program.” Could you please help insert additional language in the attached version as appropriate?

Thank you
Khanh

Thanks

On DeLauro, should we add the LVE policy?

I have no edits on the other two.

Thanks
Michal

Subject: For AA Review: HAC Questions for the Record

Dear Michal,

Please see attached responses to HAC budget hearing QFRs for your review in track changes **by COB Tuesday, 5/25.**

The responses, once approved by you, will go to OCFO for further clearance by OGC and OCIR before OMB review prior to submission to the committee.

Please note that OCSPP has the lead: only on one part of the PFAS QFRs, both NAM QFRs (coordinated with ORD) and one of IRIS QFRs.

These have been cleared by Rick.

Thanks.
